ABOUT THE ZED ASSESSMENT REPORT

The MSME Sustainable (ZED) Certification is a scheme of Ministry of MSME to facilitate, assess and certify the applicant MSME based on a matrix of Quality, Productivity, Environment, Energy and other Parameters, leading to the following Certification Levels:

This report is an outcome of an assessment (Desktop or Remote or Site, as per Certification Level) of the applicant MSME's unit based on the requirements as laid down in the relevant Certification Level. The intent of this report is to provide information useful for the MSME for it to strengthen its systems and processes and move ahead on the journey of ZED. In this report, findings are presented on an exception basis only.

DISCLAIMER

This disclaimer governs the use of this report. By using this report, you accept this disclaimer in full.

- a. This is an electronically generated report/transcript. It does not require any signature.
- b. The Certification is voluntary and the report provided pertains to the systems and processes of this unit only.
- c. This report is for the purpose of summarizing the outcomes of the assessment process for the applicant Unit as per the information provided by the Applicant.
- d. The assessment has been conducted subsequent to the undertaking by the MSME that it complies with and fulfils all relevant and applicable regulatory and statutory norms/licenses/requirements pertaining to the functioning of this manufacturing unit. Any deviation from this undertaking may result in recall/withdrawal of the Certification provided.
- e. The Certification is valid only for a period of 3 years from the date of issue as mentioned on the Certificate, subject to surveillance assessment (as applicable) conducted within the validity period. The cost of surveillance will be borne by the applicant MSME.
- f. This Report contains a summary of assessment findings as validated through the assessment which is based on the requirements of the relevant ZED Certification Level.
- g. The ZED logo can only be used by those MSMEs which have successfully achieved a Certification (Bronze, Silver or Gold). The guidelines regarding logo usage are being sent separately.
- h. This report has been made for the exclusive use and benefit of the MSME assessed and Ministry of MSME or any of its implementation partner will not accept any liability that may arise if this report is used for any purpose other than intended for nor to any third party in respect of this report.
- i. This report is not an alternative to legal / financial / taxation / accountancy / other advice from an appropriately qualified professional.
- j. Ministry of MSME or any of its implementation partner do not represent, warrant, undertake or guarantee that the use of information or guidance (if any) in the report will lead to any particular outcome or result.
- k. While every attempt has been made to ensure the veracity of this report, Ministry of MSME and QCI are not responsible for any errors or omissions, or for the results obtained from the use of the information contained herein. All information in this report is provided "as is".
- l. Information not disclosed by the applicant MSME could alter the findings outlined in this report. In such situations, Ministry of MSME reserves the right to withdraw or amend its opinions/suggestions, conclusions and Certification provided.

ASSESSMENT SUMMARY

Unit Name	BRIHASPATI NON-FERROUS METAL FOUNDRY
Udyam Registration Number	UDYAM-KR-04-0019842
Enterprise Type	Micro
NIC Sector (2 Digit)	24-Manufacture of basic metals
Unit Address	Flat No:- PLOT NO 70, Building:- BRIHASPATI, Road/Street:- ROAD NO 8, Village/Town:- KITTUR, Block:- KIADB INDUSTRIAL AREA, City:- KITTUR BELAGAVI KARNATAKA-591115
Certification Date	November 12, 2023

Latitude: 15.5651985; Longitude: 74.8029957

ZED CERTIFICATION LEVEL

Awarded to the applicant MSME after fulfilling all requirements of this Certification Level as laid down in the MSME sustainable (ZED) Certification Scheme Guidelines of Ministry of MSME

BASIC INFORMATION

Information contained in this section is as provided by the applicant MSME, relevant to the requirements contained in this Certification Level. The Photographs depicted are geo-tagged & time-stamped and have been uploaded by the applicant through the ZED online systems.

Site Exterior Picture

Site Exterior Picture

S.No	Fields	Input					
1	Whether 3rd Party Financial Audits are conducted?	No					
2	Product manufactured	Product Name	Whether Exported	Product Photo	Product Description Photo	Conformance	Assessor Remarks
		Val Bodies	No			Yes	Product image verified and found to be Ok.
3	Key Domestic Customers	Valu Manufacturer. Arth Moving Equipments					
4	Key International Customers						
5	Whether Raw Material is Imported?	No					
	Raw Materials	Raw Material Name		% of Raw Material Imported		Name of Country	
6	Processed Outsourced, if any?	Non					
7	Energy Source(s) Used	Electricity					

ASSESSMENT FINDINGS

To ensure transparency in the assessment process, the entire process (documents, photographs, comments etc.) is captured on a secured ZED server. No physical document (as evidence) has been

sought. The data/evidence captured is not shared externally with anyone, except with the relevant stakeholders involved for award of Certification.

1. Leadership

Code	Requirement	Conformance (Yes/No)	Assessor Remark
1.1	Roles & Responsibilities at all levels are clearly defined	Yes	The organization needs to ensure that Roles & Responsibilities at all levels are clearly defined and communicated to all. An organization chart can serve the purpose.
1.2	Regulatory compliances are reviewed periodically	Yes	The organization needs to ensure that Regulatory compliance are reviewed periodically. Legal & Compliance register can be maintained.

2. Swachh Workplace

Code	Requirement	Conformance (Yes/No)	Assessor Remark
2.1	Processes for cleaning & hygiene are in place addressing the nature of product, processes, customer & regulatory requirements	Yes	The organization needs to ensure that Processes for cleaning & hygiene are in place addressing the nature of product, processes, customer & regulatory requirements. SOP and checklist on cleaning and hygiene can be maintained.
2.2	All equipment, tools, work spaces & areas are maintained clean, uncluttered & organized as defined & required	Yes	Picture of working area seen, where required machines and tools are available to manufacture the product. Toilet for staff is available. It is recommended to keep it more clean so that hygiene is in place. Raw material and final product storage area seen and found to be Ok.

3. Occupational (Workplace) Safety

Code	Requirement	Conformance (Yes/No)	Assessor Remark
3.1	Safety risks are identified and measures are taken to eliminate or minimise them	Yes	This parameter is not exempted as valid ISO 45001:2018 certificate is not evident. However the organization is recommended to implement the requirements of this standard like imparting training to it staff on regular basis and identify work related hazards and risks & its controls. A HIRA register can serve the purpose.
		Yes	Fire extinguisher is available and installed on

3.2	Relevant PPEs are used by the employees		the wall. Pressure meter indicates gree. Staff are wearing PPE at the work place. Safety posters are also displayed and as per the attached attendance sheet, staff have been trained on fire safety.
3.3	Safety trainings are imparted to all relevant people	Yes	As per the attached attendance sheet, 02 staff have been trained on fire safety.

4. Measurement of Timely Delivery

Code	Requirement	Conformance (Yes/No)	Assessor Remark
4.1	Mechanism to record deliveries is in place	Yes	Delivery records are maintained through delivery checklist where Sr. no., Product Name, Party Name, Quantity and delivery and dispatch dates are mentioned. Hence Ok
4.2	Adherence to process delivery contracts is measured	Yes	Delivery records of 02 customers provided and found to be Ok.

5. Quality Management

Code	Requirement	Conformance (Yes/No)	Assessor Remark
5.1	Quality requirements for products and processes are established and monitored	Yes	This parameter is not exempted as valid ISO 9001 Certificate is not evident. However the organization is recommended to implement the requirements of Quality Management System.
5.2	Training is imparted to all relevant people	Yes	As per the attached attendance sheet, 02 staff have been trained on Quality Production.

WAY FORWARD

Quality improvement models vary in approach and methods; however, a basic underlying principle is that quality improvement is a continuous activity and not a one-time thing. As you implement changes, there will always be concerns to address and challenges to manage. The ZED Model strives to assist you in moving incrementally towards your improvement goals. Today's global business environment calls for organizations to develop, implement and maintain effective quality management systems. While the objectives of quality improvement are clear, the roadmap to reaching a superior quality operation, though more difficult and complex, is achievable when practiced.

Compared to large companies, MSMEs actually have a significant advantage in implementing environmental friendly practices. The small scale of operations makes it flexible to adapt with constantly changing regulation or environmental requirements. Environmental sustainability is a major focus in today's business world. Companies across all sectors explicitly state environmental concerns as being part of their management agenda. Businesses are striving to be more responsible towards the environment, whether by reducing their operational impact, by working towards a sustainable environment or by taking preventive measures. It is hence imperative that MSMEs realize the significant advantages of inculcating quality practices in their processes and adopting environment-friendly initiatives. We encourage you to adopt such measures and are confident that you will understand and prioritize your business needs by helping identify any deficiencies or shortcomings that need to be overcome, thereby performing better on the ZED parameters.

We urge you to leverage the competence of ZED trained consultants who will share their expertise and knowledge to help your business attain goals and solve problems. These trained professionals will view the situation from a fresh perspective and can act as a catalyst for change. A Consulting Organization will be allocated to you after a due process after you have achieved a minimum Bronze rating and you will also be eligible for financial support if you opt for this component. After the handholding process is complete, you have an option to apply for a higher Certification Level (if applicable) if you are confident that your processes have considerably improved.

You will also be eligible to avail various other benefits and incentives after achieving a Certification Level. Please log-on to the ZED Portal to know more.

Finally, we urge you to explore participating in various schemes offered by the Government, for example schemes related to Technology Upgradation, Lean Manufacturing, Intellectual Property Rights, etc., which are aimed at encouraging, enhancing and handholding the MSMEs resulting in improved quality, enhanced productivity & higher profitability of the enterprises and making them adopt environment friendly technologies. To know more about the Ministry of MSME Schemes, please visit: <http://msme.gov.in>.

All the best!

The quality movement in product manufacturing and delivery of service has undergone change from its initial emphasis on quality through inspection, to the present-day emphasis on quality through the development of robust processes capable of performing consistently in developing products and services that meet and exceed user needs and expectations.

Drury, Eklund: 1997
